Learning Disability Travel Charter

This Travel Charter has been coproduced by people with lived experience who have experience of using transport in the West Glamorgan Region.

If you would like to find out more information about the Learning Disability Transport Project, please visit:

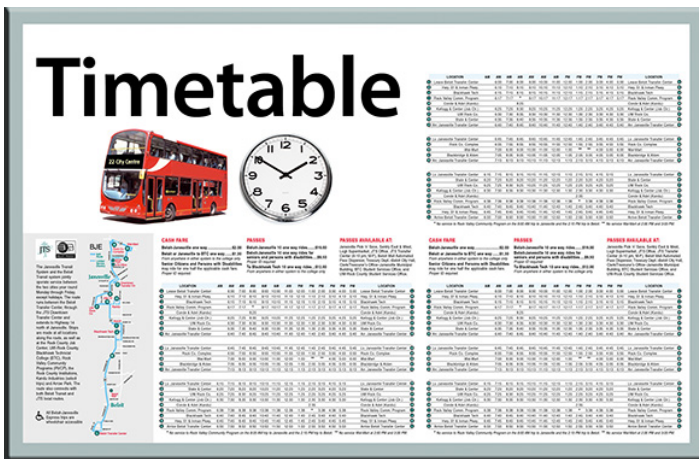

www.westglamorgan.org.uk

We need transport that works for us

This means buses and trains that are easy to use

Timetables and signs should be clear and simple

We would understand them better if they were in easy read

Bus and train stations should have safe spaces

We need to feel safe when we travel

Staff should be well trained about learning disabilities

Travel would be easier if they know how to help us

We want to be treated with dignity and respect

This is very important to us

If service is poor, we need easy ways to complaint

It should not be hard for us to speak up

We need enough space and time to get on and off vehicles

This makes travel easier for us

**Good transport helps us live better lives
It lets us go where we need to go**
